Rewarding excellence

Following the success of the PetQuip Awards held in the past two years, the PetQuip association has announced that it will stage the event again in 2015, in association with PATS at its new venue in Telford. The awards evening will be staged in the Ludlow Suite, part of the Telford International Centre on Sunday 27th September at 7.30pm.

Organiser Pat Flynn, PetQuip's association manager; said: "Many of the British firms shortlisted in 2013 and 2014 have reported on the value of the awards as an aid to boosting their businesses.

"The awards have helped in cementing company credibility in the market place and led to numerous promotional opportunities.

"The popularity of the awards resulted in the organisers of PATS welcoming the event as part of their plans at the new Telford venue and they intend inviting many of their retailer visitors to the event."

The entry categories for the 2015 awards are:

- 1. Supplier of the Year**
- 2. Wholesaler/Distributor of the Year**
- 3. Pet Product Innovation of the Year**
- 4. Exporter of the Year**
- 5. Marketing Campaign of the Year**
- 6. UK Pet Retailer of the Year**
- 7. International Pet Retailer of the Year**
- 8. Lifetime Achievement**

Entry for the awards is now open and is completely free of charge; companies or persons can enter as many categories as they wish.

Entry forms are available online at www.petquip.com, or telephone 01959 565995, and nominations need to be emailed to patt@petquip.com by June 30. Nominations can come directly from the entrant or be submitted by a third party.

The entries will be judged by an independent panel of judges and the winners will be announced at the PetQuip Awards Party on September 27.

What it means to win a PetQuip Award

Manchester-based Betty & Butch was crowned PetQuip Pet Retailer of the Year 2014. Co-founder and general manager Angel Moore reveals what it means to win this coveted award.

"It's a fantastic feeling to know that all our efforts over recent years have been noticed. We've tried very hard to encourage and educate customers on the benefits of healthy dog products, and this is recognition that the way we do things is what people want to see more of. When looking at the competition we had in our category, it really is a proud moment for the company."

- 4** With so many pets being owned there is huge demand for innovative products.

Putting Buyers with Suppliers

The promotion of trade between buyers and suppliers, both internationally and in the UK, is a prime objective for the PetQuip Association.

Meet the Buyer Days

PetQuip target key distributors and wholesalers, pet retail chains and independents, mail order and internet retailers to meet with UK suppliers in a relaxed environment. Flying buyers in from Europe and the Middle East, we also give them the opportunity to visit UK pet stores the day before they meet the suppliers. The store visits result quite often in identifying yet more suppliers with new products, in addition to the scheduled meetings on the following day.

The Meet the Buyer days are very focussed – the buyers get to see around a dozen UK suppliers on one day and the 25 minute face-to-face meetings allow for a good introduction to the company and their products.

Alongside the one-to-one meetings with buyers, the suppliers have the chance to attend informal round-table seminars and meet with export service providers, UK Trade & Investment representatives and the PetQuip team.

For UK suppliers an MTB day is a rare opportunity to meet key buyers, to put a face to a name and start to build a rapport, present samples/company brochures and to make a

Buyers from The Netherlands, Denmark, Finland, Sweden, Switzerland and Hungary – March 2015.

presentation as to why their product should be stocked.

The suppliers taking part receive profiles of the participating buyers prior to when a meeting takes place and can then apply for attendance. Many buyers specify their areas of product interest at the outset so suppliers know where they stand.

Buyers receive details of the suppliers applying for meetings and have the chance to check out their websites, enabling them to decide if a meeting is worthwhile. So both sides know something of each other's business and the buyer knows they are meeting the relevant

contact. This is particularly important if the buyer is from overseas as not all contacts are able to discuss exports in detail.

If you are a supplier wishing to take part in MTB days, please contact Theresa Swann, Head of Events & Administration theresa@petquip.com for more information.

If you are a buyer and would like to take part, please contact Charlie Parker, Commercial Manager charlie@petquip.com or Eleanor Wigram, Research Manager eleanor@petquip.com

International interest in PATS set to grow

PATS' standing as an international pet trade show is set to grow even further following the decision to move its September 2015 show to the Telford International Centre.

The switch to Telford is seen as a great opportunity to attract more international visitors eager to discover innovative new pet products from UK companies. With England's two largest international airports (outside of London) ideally situated for Telford – Birmingham with 110 daily arrivals and Manchester with almost 200 – travelling to and from the event will be far easier.

PATS Telford is taking place on Sunday, September 27, and Monday, September 28, 2015, and UK pet suppliers are already getting excited about the chance to showcase their products and services to a growing number of overseas distributors.

Amanda Sizer Barrett MBE, director general of PetQuip, says: "I'm certain the move to Telford will elevate PATS on the international stage. The whole image of the venue will be good for attracting buyers from abroad and we will be working closely with the PATS team to deliver a growing number of overseas visitors."

Amanda agrees that travelling to and from the event for international buyers will be far easier than in the past because of the close proximity to Birmingham and Manchester airports.

PetQuip will be hosting the International Buyers' Centre at PATS Telford where overseas visitors will be able to leave their baggage, relax with a cup of tea and coffee or have a business meeting. PetQuip staff will be on hand to offer advice about the UK market and business opportunities.

PATS believes that the British pet industry should be staging international exhibitions in the UK. Organiser Gordon Thomas says: "The UK pet market is the second largest in Europe and we need a venue that reflects the scale of the trade. Telford International Centre fits the bill perfectly."

The show organisers believe the move to Telford International Centre is the best and most exciting option for many reasons. The venue is a purpose-built exhibition centre, with a light airy feel, ideally situated on the edge of the town.

There is a wide range of accommodation to suit all budgets in and around the venue with three hotels on site offering 338 bedrooms. A further 325 bedrooms are available within a five-minute walk and 1,000 just a 15-minute drive away.

Stand space at PATS Telford is selling out fast and international buyers will be interested to learn that an increasing number of exhibitors are listed as exporting their products.

PATS Telford is the idea venue for discovering what's new in the British market and an opportunity to talk to UK-based manufacturers and suppliers.

The New Products Showcase is a great way to see and touch products that might become bestsellers in their markets. In previous years more than 200 new items have been entered into the Showcase.

As well as having the chance to see the latest products being launched on to the market, there will be a whole host of other activities designed

to help international visitors make their visit a profitable one, including free-to-attend series of seminars covering a wide range of topics.

Another show worth visiting is AQUA 2015, the UK's water gardening and aquatics trade event, also staged at Telford International Centre. Run on similar lines to PATS, the exhibition attracts the leading British companies in this sector of the market and is well worth a visit.
